This is an antiperspirant spray called sure it's different really most antiperspirant sprays go on wet and oily.

00:00:09

Compared to shore which goes on dry and sure it keeps you drier prove it under your own 2 arms try sure on your right side and spray you like best on your left side if you like most people your right side will convince your left side you will be drier.

00:00:27

We're sure.
